Experience

Front End Developer - Socia I.T. Solutions

July 2025 – Present

- Develop and maintain scalable web and mobile applications using React, Next.js, TypeScript, React Native, and Expo.
- Integrated RESTful backend APIs and services, managing authentication flows, secure data fetching, state management, and real-time updates.
- Build responsive, high-performance user interfaces with a strong focus on usability, accessibility, and cross-platform consistency.
- Collaborate closely with UI/UX designers, backend engineers, and stakeholders to deliver reliable, user-centered products aligned with business goals.

Software Developer – Freelance

2022 – Present

- Deliver end-to-end web solutions for diverse clients, from requirements gathering and architecture to deployment and maintenance.
- Build custom websites and web applications using Next.js, React, and Tailwind CSS, with a focus on clean UI and scalable architecture.
- Integrate RESTful backend APIs, implement authentication and database connections, and manage application state and data flow.
- Optimize applications for performance, SEO, accessibility, and cross-browser / cross-device compatibility
- Collaborate directly with clients to translate business needs into reliable, production-ready solutions.

Projects

- Live Streaming Platform (Web & Mobile)
- Modern Ecommerce (Mobile App)
- Dayo Series (Mobile App)
- Kindler (Mobile App)
- Flix Senpai Streaming Platform
